

PIG® Oil-Only Absorbent Boom

BOM405 ext. dia. 5" x 10' L, Each absorbs up to 6 gal., 4 booms per bag

Confine and absorb oil and fuel spills on water.

- Absorbs and retains oils and oil-based liquids - including lubricants and fuels - without taking in a drop of water
- Booms float at surface for easy retrieval, even when saturated
- Tough outer mesh is UV resistant for long-term outdoor use without degradation; lets fluids easily pass through to filler material
- Rope running along length of boom withstands up to 400-lb. loads, adding strength for deployment and retrieval
- Spunbond polypropylene skin is UV resistant up to 12 months; meets ANSI and MIL-SPEC standards for static decay
- Strong, zinc-plated carbon steel attachment clips and rings allow you to link booms together for greater length
- Bright white color makes booms easier to see in outdoor environments and clearly shows saturation level
- Can also be used to contain and absorb oil spills on land
- Can be incinerated after use to reduce waste or for fuels blending
